JK Maxx Seal

ELASTOMERIC WATERPROOFING COATING

ABOUT THE PRODUCT

JK Maxx Seal is an acrylic modified fibre reinforced, crack bridging, high elongation waterproofing coating to be used for interior and exterior surfaces for protection against dampness, water ingress and corrosion.

WATERPROOFING WARRANTY - 01

APPLICATION ON HORIZONTAL AREAS AND TERRACES

JK Maxx Paints Ltd (referred to as "Company") offers Ten Years Warranty* from date of purchase, on the application system for its product JK Maxx Seal for application on terrace and horizontal surfaces. The JK Maxx Seal system consists of usage of JK Maxx Seal (henceforth referred to as JK Maxx Seal) as per the system of application mentioned in the product information sheet.

WARRANTY CRITERIA:

1. Minimum 40 Ltrs of JK Maxx Seal should have been purchased and consumed on a single building.
2. The entire terrace along with the parapet needs to be enveloped as recommended.
3. Warranty Needs to be registered within 45 days of purchase of JK Maxx Seal.
4. Necessary to have coving/angle file on Terrace.
5. Recommended forced system coverage of 0.93 sq. m./L (10 Sq.ft./L) must be achieved for warranty registration.

EXTENT OF WARRANTY:

The warranty shall apply where:

- a. When the total volume of the said system purchased exceeds 40 Ltrs and the usage on a particular site exceeds 40 Ltrs.
- b. For sites where the quantity of the said system usage exceeds 200 Ltrs, the Warranty is applicable, subject to satisfactory pre-inspection of the exterior surface to be painted by the Company's representative.
- c. Only the surface immediately underneath the terrace or the top floor of the building, as the case may be, shall be covered under this warranty. The warranty shall not cover the cases of water seepage from surfaces NOT covered with JK Maxx Seal.
- d. Under normal use and service, the roof or vertical walls of a building which is not coated by JK Maxx Seal should be free of water leakage or seepage.
- e. The Company will only provide replacement paint for re-application of coating, as may be necessary to set right the Paint Failure in the affected portion only in accordance with Liability as indicated in the 'Liability' section.
- f. Throughout this warranty the word "paint failure" shall mean any of the following occurring, subject to the other conditions laid down under this warranty:
 - i. Film integrity, flaking and peeling of the paint JK Maxx Seal caused by one coat of paint coming off from another or the paint film coming off the substrate.
 - ii. The paint film shows blistering, splits, tears, cracks, or shows evidence of excessive weathering due to defective material.
 - iii. External water ingress through terraces/ parapet walls where JK Maxx Seal system is applied.
 - iv. Company does not give any warranty against dirt pick up of JK Maxx Seal on horizontal area.

COMMENCEMENT AND DURATION:

- a. This Warranty shall commence from the date ("the Commencement Date") of completion of the painting project on the said building or the structure and the consumer has lodged his warranty with the company by contacting 1800 203 4555 and sharing all the purchase and personal details requested by the company.
- b. If there is a break or recess period in the painting work on the same building, finalizing the commencement date shall be at the discretion of the JK Maxx Paints team.
- c. The Company at its own discretion may appoint a person to inspect and validate the application as per the directions specified.
- d. The Warranty shall be for a period of Ten (10) years on terrace waterproofing.
- e. Where any claim arises during the warranty period, the period will not start afresh after settlement of the claim.

APPLICATION:

This Warranty shall only be applicable where:

- a. JK Maxx Seal have been used for terraces on concrete or bare plaster and that the entire terrace is enveloped including parapets till a height of 2 feet below the terrace - parapet joint on the outer wall / Exterior wall
- b. JK Maxx Seal is applied at coverage rate specified in the Product Information Sheet i.e., 0.93 sq.m./lit (10 Sq.ft./lit).
- c. Cracks up to 3 mm on the surface are filled with JK Maxx Crack Repair applied as per instructions in its TDS before application of JK Maxx Seal.
- d. Terrace has been thoroughly prepared in terms of repair work and cleaning to remove grease, dust, loose particles, and other elements.
- e. A suitable slope is provided to the roof to avoid water ponding.
- f. Loose plaster, structural cracks are repaired as per standard construction practices.
- g. Previous water proofing treatment (2K cement based/ bituminous etc) if any is completely removed to reach bare plaster.

- h. In case of adjoining terraces (separated by a common parapet wall), the terrace not coated with JK Maxx Seal must not have any leakages.

LIABILITY:

- a. The Company's liability will reduce over the warranty period according to the following scale:

1. Within the first 12 months after Commencement Date – 100% of replacement cost
2. From month 13 to month 24 after commencement date – 90% of replacement cost
3. From month 25 to month 36 after Commencement Date – 80% of replacement cost
4. From month 37 to month 48 after Commencement Date – 70% of replacement cost
5. From month 49 to month 60 after Commencement Date – 60% of replacement cost
6. From month 61 to month 72 after Commencement Date – 50% of replacement cost
7. From month 73 to month 84 after Commencement Date – 40% of replacement cost
8. From month 85 to month 96 after Commencement Date – 30% of replacement cost
9. From month 97 to month 108 after Commencement Date – 20% of replacement cost
10. From month 109 to month 120 after Commencement Date – 10% of replacement cost

- b. It is clarified that the Company's liability will be limited to the cost of paint only.
- c. The replacement cost shall be the cost of the paint JK Maxx Seal only required to set right the area of paint failure only, at the time of the lodgment of claim. The Customer will be liable for the balance costs, which are not the company's obligations, as indicated above.
- d. The Company will not be liable for any indirect or consequential loss or damages to the Customer. The Customer's exclusive and sole remedy under this Warranty shall be as mentioned herein this clause

CONDITIONS OF WARRANTY:

- a. JK Maxx Seal must have been applied as per our instructions mentioned in "Directions of Use" on the bucket or as per Product technical sheet.

- b. Warranty will be applicable only for seepage from terrace & parapet walls if JK Maxx Seal is applied on the terrace. It is not applicable for water seepage from vertical surfaces or outer walls where JK Maxx Seal has not been applied.
- c. The product must have been stored as specified in their packaging instructions and have been used within their shelf life.
- d. JK Maxx Seal should not be applied during extreme temperatures, rains, fog, mist, snow, or when such conditions are imminent during application or curing period
- e. JK Maxx Seal should not be used in combination with products from any other manufacturer.

EXCLUSIONS:

The warranty shall be void in the following events:

- a. Intermittent dripping of water due to overhanging branches, terrace gardening plant pots or concealed plumbing lines
- b. Water ingress from bathroom, toilets, kitchen sinks or any area not treated with JK Maxx Seal
- c. Water penetration due to capillary rise from the ground level, including water leakage, seeping and continuous dampness of the surface.
- d. Inadequate housekeeping of terrace or roof resulting into water logging
- e. Defects in the design of the building or roofing system, including inadequate drainage system, settlement, movement or other structural defects.
- f. Warranty will be void in case of leakages through duct or other areas where JK Maxx Seal is not applied due to inaccessibility of that area
- g. Warranty will be not be applicable in case of leakages through water storage tanks on terraces (any leakages through storage tanks must be identified & rectified as per standard civil practices)
- h. Exposure of JK Maxx Seal to damaging substances such as chemicals, solvents or oils.

- i. Building or structural expansion or additions or reductions, shifting, distortion, failure or cracking of building components.
- j. Puncturing of cured product film due to sharp objects, movements of heavy articles, fixing of antenna or other structures on the terrace
- k. Removal, excavation or replacement of concrete or other materials in connection with the testing, repair, removal or replacement of the product.
- l. Leaks or damages resulting from Acts of God including but not limited to lightning, flood, wind, earthquake, hurricane, tornado, hail or other violent storm or casualty or impact of stated or unstated objects.
- m. Leaks or damages resulting from any additional installations on the surface coated with the system or usage on surfaces that already have pre-installed elements that are not consistent with the recommended application.
- a. The Warranty will cover only manufacturing defects of JK Maxx Seal and will not cover any defects arising out of factors out of control of the Company, including but not limited to:
 - i. Paint failures due to structural defects, moss and other vegetative growth, excessive bird droppings/spitting, water leakage and seepage within the building structure and continuous dampness of the surface, staining due to plant pots
 - ii. Natural calamities such as earthquakes, cyclones
 - iii. Failure or defects in the structure or previous coating
 - iv. Vandalism
 - v. Acts of God
 - vi. Abuse or negligence by the Customer
 - vii. Causes other than defects in JK Maxx Seal
 - viii. Improper surface preparation
 - ix. Surface with contaminants and not dry
 - x. Normal wear and tear
 - xi. Any act or omission on the part of the Contractor/Painter causing the JK Maxx Seal system to be defective by any means.

- xii. Weak/ debonded plaster surface, structural defects in the building
- xiii. Broken water sprout, old water pipe lines etc.

OWNER'S RESPONSIBILITIES:

- a. Roofs coated with JK Maxx Seal may become slippery after rains. Care must be exercised while accessing such roofs. The company does not take any responsibility for the safety of persons accessing the roof under such conditions.
- b. The owner should exercise normal housekeeping and after care post application of the JK Maxx Seal system.

CLAIMS AND REPAIRS

- a. Any claim made in terms of this Warranty shall be made within 30 days of the consumer discovering any defect, damage or failure which gives rise to a claim.
- b. The consumer shall forthwith notify the Company of the claim providing full details thereof and shall set out the basis on which it believes that the Company is liable in terms of the Warranty.
- c. The Company reserves the right to carry out inspections of the paint application process, in which the JK Maxx Seal system is alleged to have failed and to perform any tests in respect thereof and may do so either itself or by means of any person nominated by it. Prior to such inspection or testing, the consumer shall not be entitled to perform any repairs to or remove or tamper with any part of the system.
- d. The Company shall use its best endeavors to ensure that the paint required for repairs is available as soon as possible at the place where the repairs are to be carried out but does not assume liability for delay in this respect.

The Company, in its sole discretion shall be entitled to Control/monitor re-painting which is to be carried out in accordance with all its specifications and instructions: and Appoint a contractor and / or approve the contractor appointed by the Customer.

MISCELLANEOUS:

- a. This Warranty disclaims any liabilities, contracts, tort or otherwise including negligence and strict liability and the Company makes no warranty or merchantability or of fitness for any particular purpose whatsoever for JK Maxx Seal system. There are no warranties expressed or implied under law, which extend beyond the warranty set out herein.
- b. If any dispute arises between the Company and the Customer, in respect of the above Warranty, neither shall commence any court or arbitration proceedings relating to the dispute, unless they have first complied through mediation.
- c. In case of any disputes, the same is subject to exclusive jurisdiction of the courts of Delhi.
- d. The facts and all matters concerning any dispute will be kept confidential by both the Customer and the Company at all times

- a. The Warranty shall apply where:
 - i. The total volume of the said system purchased exceeds 60 Ltr and the usage on a particular site exceeds 60 Ltr.
 - ii. For sites where the quantity of the said system usage exceeds 200 Ltr, The Warranty is applicable, subject to satisfactory pre-inspection of the exterior surface to be painted by the Company's representative.
 - iii. Under normal use and service, the roof or vertical walls of a building which is not coated by JK Maxx Seal System should be free of water leakage or seepage.
 - iv. The Company will only provide replacement paint for re-application of coating, as may be necessary to set right the Paint Failure in the affected portion only in accordance with Liability as indicated in the 'Liability' section.
 - v. Throughout this Warranty the words "Paint Failure" shall mean any of the following occurring, subject to the other conditions laid under this Warranty:

1. Film integrity, flaking and peeling of the paint JK Maxx Seal caused by one coat of paint coming off from another or the paint film coming off the substrate.
2. The paint film shows blistering, splits, tears, or shows evidence of excessive weathering due to defective material.
3. Growth of fungus and algae on wall surfaces* (at least spread over a minimum area of 1 sq. metre (10 Sq. feet)
4. External water ingress through surfaces (only vertical walls) where JK Maxx Seal system is applied (Water ingress through the roof or any other part of the structure not protected through the JK Maxx Seal system will not be covered by this warranty)

COMMENCEMENT AND DURATION:

- a. This Warranty shall commence from the date ("the Commencement Date") of completion of the painting project on the said building or the structure and the consumer has lodged his warranty with the company by contacting 1800 203 4555 and sharing all the purchase and personal details requested by the company.
- b. If there is a break or recess period in the painting work on the same building, finalizing the commencement date shall be at the discretion of the JK Maxx Paints team.
- c. The Company at its own discretion may appoint a person to inspect and validate the application of the system as per the directions specified. JK Maxx Seal Application on Exterior Vertical Walls.
- d. The Warranty shall be for a period of up to 10 years on waterproofing when covered with JK Maxx topcoat from the Commencement Date.
- e. Where any claim arises during the warranty period, the period will not start afresh after settlement of the claim.

APPLICATION:

- a. This Warranty shall only be applicable where:
 - i. JK Maxx Seal system has been used for vertical exterior masonry wall surfaces only.

- ii. JK Maxx Seal System is applied at a coverage rate specified in the Product Information Sheet
 - 1. Fresh Painting: 2.32 sq. Mtr/Ltr
 - 2. Repainting: 2.79 – 3.25 sq. Mtr/Ltr
 - iii. JK Maxx Seal is top coated with JK Maxx Topcoat on Vertical walls wherein Topcoat is applied as per instructions on the TDS of the used Topcoat.
 - iv. Topcoat is applied at a coverage specified in the Product Information Sheet i.e., 5.1 to 6 sq. meter/Ltr (55- 65 Sq.ft./Ltr).
 - v. Cracks up to 3 mm on the surface are filled with JK Maxx Crack Repair, applied as per instructions in its TDS before application of JK Maxx Seal.
 - vi. The parapet walls should be properly leaned and JK Maxx Seal should be applied on internal and external faces. Provide some slope to top of parapet walls to drain off rainwater from it.
- a. The parapet walls or any other projections on the terrace need to be enveloped completely by the JK Maxx Seal system. The edges formed by the terrace/ roof with the parapet walls need to be coated by JK Maxx JK Maxx Seal.
 - b. Based on the inspection, JK Maxx Paints team may also specify any other parts of the structure which need specific protection by application of its products.

DIRECTIONS FOR USE:

Different application system is to be followed in case of Fresh painting and repainting over vertical surfaces. Post recommended surface preparation, system application is to be done as detailed below.

- i. Fresh surface (Must be a cement plaster in sound condition with no debonding. Localized repairs done as per standard civil practices in case it is required):

1. Apply a fresh coat of JK Maxx Seal mixed in ratio of 3:1
 2. Allow to dry for 4-6 hours and then apply another coat of JK Maxx Seal without dilution with forced system coverage of 2.32 sq. Mtr/Ltr (25 Sq.ft/Ltr)
- ii. Repainting over surfaces free from chalking and painted with high quality exterior emulsion like (JK Maximo ULtra or JK Armour) in the last 5 years:
1. On surfaces previously painted with premium quality exterior emulsions (in sound condition with no flaking peeling off etc), apply one coat of JK Maxx Seal without dilution at a spreading rate of (2.79 to 3.25 Sq. meter/Ltr) 30-35 Sq.ft./Ltr and allow to dry for 4-6 hours.
- iii. JK Maxx Topcoat Application:
1. Apply 2-3 coats of Topcoat at 30-40% dilution with a spreading rate of (5.1 to 6 sq. meter/Ltr) 55-65 Sq. feet/Ltr for 2 coats.
 2. A gap of 4-6 hours should be given between two coats.TDS
 3. Ensure that a third coat is applied for dark shades or while painting on horizontal surfaces like top of windows, ledges etc. for better hiding and protection. (Please refer to the TDS of the Topcoat being used)
- iv. Special Precautions before product application:
1. The surface to be painted (fresh plaster or repainting surface) should be in sound condition with no debonding, flaking or loose particles on the surface. Any areas where the surface is not in good condition needs to be repaired as per standard civil practices
 2. Application of a coat of putty under the JK Maxx Seal system is not recommended, as it may reduce the overall bonding strength of the system to the surface.
 3. In case of fresh plaster surfaces with high undulations, a thin coat of JK WallMaxX Putty may be applied to smoothen the surface. However, please ensure the putty coat is cured completely before application of the JK Maxx Seal system.
 4. Do not apply during or when rain is expected in next 8 hours
 5. Do not over-thin or over-extend the brush.
 6. Protect freshly painted surface from rains till full dry.

7. Stir well and strain before use (for topcoat).
8. The product must have been stored as specified in their packaging instructions and have been used within their shelf life as mentioned in the product information sheets of JK Maxx Seal and JK Maxx Topcoat.
9. Ensure SSD condition for fresh surface, before application of JK Maxx Seal, which helps in smooth application achieving desired coverage.
10. Application should be done between 5°C to 35°C. Application done below 5°C, will cause cracking in applied coating
11. Application should not be carried out in high temperature or sunlight, especially afternoon time.
12. Application in sunlight causes eye irritation, so use sunglasses during application.

Please note that the warranty will cease to be valid in the absence of the conditions mentioned above not being fulfilled.

LIABILITY:

- a. The Company's liability will reduce over the warranty period according to the following scale:

1. Within the first 12 months after Commencement Date – 100% of replacement cost
2. From month 13 to month 24 after commencement date – 90% of replacement cost
3. From month 25 to month 36 after Commencement Date – 80% of replacement cost
4. From month 37 to month 48 after Commencement Date – 70% of replacement cost
5. From month 49 to month 60 after Commencement Date – 60% of replacement cost
6. From month 61 to month 72 after Commencement Date – 50% of replacement cost
7. From month 73 to month 84 after Commencement Date – 40% of replacement cost
8. From month 85 to month 96 after Commencement Date – 30% of replacement cost
9. From month 97 to month 108 after Commencement Date – 20% of replacement cost
10. From month 109 to month 120 after Commencement Date – 10% of replacement cost

**The above liability details are as per 10 years waterproofing warranty; it will change basis topcoat used. Please note, whatever topcoat is being used, there will be an 80% reduction between JK Maxx Paints liability in Year 1 and last year of warranty. In such cases, please contact JK Maxx Paints team for more details on liability structure before product application.

- a. It is clarified that the Company's liability will be limited to the cost of paint only.
- b. The replacement cost shall be the cost of the paint JK Maxx Seal only required to set right the area of paint failure only, at the time of the lodgment of claim. The Customer will be liable for the balance costs, which are not the company's obligations, as indicated above.
